**Invite you to participate in the XXI International Scientific and Practical Conference for  
young educational researchers  
"Educational Sciences in Changing World: Research Prospects to Solve Global  
and Local Problems"  
October 20-21, 2022  
HYBRID CONFERENCE FORMAT**

Bachelor's, specialist's, master's, postgraduate students conducting research in education are invited to participate in the conference.

**Conference aims** at creating the space for scientific self-determination and socialization of young researchers, building a promising path for scientific and educational activities.

**Conference objectives:**

- Presentation of research ideas and outcomes of the conference participants;
- Providing of effective scientific reflection and feedback for Conference participants;
- Strengthening the cooperation of young researchers in education, the formation of research communities (networks);
- Informing conference participants about further opportunities for scientific and educational development: thematic conferences, regular seminars, summer schools, internships;
- Learning the content of the master's and postgraduate research programs;
- Meeting with scientific supervisors and consultants, building the mentoring and supervision relationships;
- self-determination and choice of a possible further training route for conference participants;
- Integration into the global agenda of educational research.

The Program Committee includes the Science Council members of the Russian Educational Research Association. Co-chairs of the Program Committee:

**A. Margolis**, Rector of MSUPE, Honorary Professor of MSUPE (Moscow),  
**S. Kosaretsky**, Director of Pinsky Centre of General and Extracurricular Education,  
Associate Professor of Department of Educational Programs of Institute of Education, HSE  
University (Moscow).

The conference is held with international participation, including cooperation with foreign Associations of educational researchers.

The conference program includes plenary sessions, thematic sections, interactive master classes, competitions for speakers.

Conference sections cover the following topics:

1. Psychological research in education
2. Pedagogical research (experiences and innovations in pedagogical practice)
3. Research in educational management
4. Research in sociology and philosophy of education
5. Research in preschool childhood and education
6. Research on development of digital technologies in education
7. Research in educational measurement
8. Research in special pedagogy and inclusion
