**Invite you to participate in the XXV International Scientific and Practical
Conference of Young Researchers**

“EVIDENCE-BASED PSYCHOLOGICAL SCIENCE FOR THE DEVELOPMENT OF PRACTICE: RESEARCH AND DEVELOPMENTS BY YOUNG SCIENTISTS”

April 28–29, 2026

Conference goals:

- Creating a space for scientific self-determination and professional development of young and aspiring researchers representing various areas of psychological science;
- Involving young researchers in reflecting on the trends of transformation of psychological science and practice, and designing promising approaches to generating and applying scientific knowledge to solve current social problems

The conference invites undergraduate, specialist, masters, and postgraduate students, as well as practitioners from various industries who are conducting research and projects.

Participation in the conference will provide aspiring researchers with opportunities to:

- present their research paper or project to leading scientists and industry leaders, receive expert feedback and recommendations for publication and career advancement;
- take part in discussions on the future of psychology as a science and its role in responding to the challenges of the modern world;
- become part of a community shaping the research and applied agenda for the coming decades;
- find a scientific supervisor, advisor, mentor, or industry partner;
- receive recommendations for participation in leading specialized scientific conferences, admission to PhD programs, and publication in reputable journals;
- design their professional future by exploring career prospects in academia, research centers of technology companies, consulting, and social projects.

The plenary session will feature talks by leading Russian researchers and industry leaders.

The conference programmer includes:

- workshops on applying modern methods of psychological research, using artificial intelligence technologies in research activities, and transforming scientific knowledge into specific products and services;
- a foresight session on "Models of Organizing Psychological Science to Address the Challenges of the New Reality";
- a project session on "Technological Transformation of Psychological Practice".

Thematic sections:

1. Preschool Childhood in the Digital Age: Technologies and Development
2. Psychological Resources of the Individual and Family: Psychological Assistance in Stressful Situations
3. The Modern World in the Focus of Research in Counselling and Clinical Psychology
4. Experimental Research in Cognitive Neuroscience and Neurotechnology
5. Current Problems of Social Psychology in Research by Young Scientists
6. L.S. Vygotsky and Modern Education
7. Evidence-Based Research in Social Design and Promotion of Restorative Approach Technologies
8. Promising Research in the Education and Support of Children with Autism Spectrum Disorders and Other Developmental Disabilities
9. Developmental and Educational Psychology: Continuity of Traditions and Vectors of Modern Research
10. Family Values in a Multi-Ethnic Youth Environment
11. Information Technologies.

The conference will be held in a hybrid format.

Possible forms of participation:

- ✓ oral presentation;
- ✓ participation as a listener;
- ✓ publication of abstracts.

Following the conference, an electronic collection of abstracts will be published.

Only abstracts approved by reviewers will be published.

The best papers will be recommended for publication in MSUPE journals indexed in the international databases Web of Science and Scopus.

Authors of the best papers (presentations) in each section receive the following privileges:

the right to participate in leading MSUPE scientific events (conferences, round tables, etc.) on relevant topics and a letter of recommendation for participation in significant conferences (not held at MSUPE);

recommendations for publishing an article in MSUPE journals;

additional points when applying for master's or PhD programs (counted as individual achievements).

Participation conditions:

To participate in the conference, you must register via the online registration system at: <http://myeduconf.ru>

Applications and abstracts are accepted until **April 10, 2026**. The requirements for abstract formatting are available at: <https://myeduconf.ru/conference/requirements>. Participants are advised to use the style file provided on the conference website <http://myeduconf.ru> in the "FOR PARTICIPANTS" section.

There is no participation fee.

Working languages of the conference: Russian and English.

Organizing committee contacts:
